

Technical program

Session A: Lecture hall U3

10:00 – 11:00 Session 1A

Measuring TEE Resource Usage for Outsourced Computations

Fritz Alder

Empirical decision model learning for various optimization techniques

Karina Karapetyan

Real-time computer vision applications on mobile devices

Gabor Finta

11:00 – 11:15 Short break

11:15 – 12:15 Session 2A

Modern Mobile Graphics Processors

Paavo Pärssinen

Tapping the web to measure its privacy

Juho Kyrölä

Scanning the Internet to find security loopholes

Tuukka Rouhiainen

12:15 – 13:00 Lunch break

13:00 – 14:30 Session 3A

Eventual Consistency in NoSQL Databases

Juuso Mikkonen

Analyzing Weak Memory Models

Roope Stenhammar

Indoor Localization Techniques for Wireless Sensor Networks

Simo Perttula

Problems and possibilities of the payment services directive (PSD2)

Ilkka Saarnilehto
