# Conceptions of teaching and learning – why it is important to be aware of these?

Teacher's own conception of learning has an impact on his/her choices of teaching methods

If you want to develop your teaching, it is vital to know what to develop

 Different conceptions may lead to different teaching methods – and different methods may lead to different learning results

Different students may be used to different teaching and learning methods, so the expectations of teaching and learning may vary

- Discuss your objectives and their connection with the theme with others interested in choosing the same topic
- Write down viewpoints relevant to the theme that emerges during your discussion
- You may change groups and talk to different people

# **Forming peer groups**

- Each group should have appr. 4-5 people
- Preferably multidisciplinary groups
- Pick a name for your peer group and list members and give to Maire: you will get your group's wiki
- Write down your group's common and personal objectives on group's wiki.

  - ✓ At least two meetings during the course
  - ✓ Meetings may be f2f or virtual, <u>between</u> the contact days
  - Collaborative discussions and documentation in your group's own space in MyCourses

## Peer group working continues

- 3. Make a plan for the meetings in order to further your objectives. For instance:
  - 1<sup>st</sup> meeting: clarify objectives, divide tasks, planning of how to report the outcomes, check your timetables
  - 2<sup>nd</sup> meeting: discussion on discovered answers, new viewpoints, new ideas and integration of viewpoints as well as planning the presentation of group objectives, process and outcomes for the last face-to-face teaching session
- 4. Write a summary of each meeting & the final outcome on MyCourses
