

## Where is the A4 material ?

The solutions for the homework assignments will not be available in an electronic format. They will be available as a printed material on the table close to the janitor's office in K3 building address of which is Puumiehenkuja 5 A. The entrance is the same with that of my office. The location of the entrance is in the map of "My Office; Kari Santaoja" in the MyCourses.

Some other material may be delivered on the same table as well.

The corrected homework assignments can be received back during the calculation hours. The Finnish law does not allow us to leave them without our control.

The A4 material will be here.
