- Mary, 3rd year PhD, tang. rep
- Vanessa, 3rd MA Area
- Wang, 2nd
- ...
- Ida, 2nd year PhD, Dep. M.

- any questions

• Maria does light intro

- Paula intro note taker - can comment & ask
- suggests what do you mean? to understand meanings

6:15

Q1: designed as read, how comfortable person the conversation

Maria: me very comfortable. interesting to hear other

Ida: typically, not very comfortable. trying more. always an exercise, even now.

not used to talk in publ. w/ new ppl. takes time.

initially

Ken: takes time to reflect, it was fast to reflect.
nice atmosphere, responsive
new. needs time to process
would like longer time
increase the comfort

Maria?: mob lectures session

Van: in between session

Maria: would want more time to process,

- Asking Mary: how would you

Mary: i missed alot. Did not feel uncomf.
Hard to follow up to what has already
been said

general - fine, OK to talk in class
the format: be flexible how to do stuff
also make inclusive

- Asking guy to add something

M: i) been comfortable bcs. be open to
every thing i have said.
you guys have also open
learn a lot by pointing out
in comfortable

- were moments when uncomfortable
referring to the course

12:15

Maria: timeline compressed, those who can read
great. some don't
exerciss to readings to discuss

more time to process and comp
space to discuss the readings - quickly or at all
we could have had debates, volume

Da: text interesting
to time to process, time to reflect

swirls around

Maria: match between points were good

14:00

Q: issues of timing w/ location. is it a problem that they are diverse?

ida: no

Marta: No

people look at me taking notes

Vanessa: yes, seems like affected

- increase exp.

Vanessa: good to start

Mary: to MA students, you seemed comfortable did it feel

Van: not sure in discipl or level. not used to the way how ppl speak. difference between what usually happens

Mary: I find it brave. I would not have done

ida: me too

Marta: i am at the roman program. MA students don't seem to be committed enough. Not about education; but lower seriousness than expected.

Finally, ppl who turned about doing Arts. not interested in methodology

there more elaborate

ida: is it more art

Marta: yes, but also what if there much more structured that some we can call positivist. other piece

- add sem / classes

Van: in MA less serious in research and more practical

King... has not said anything. sit further away from faculty
↳ concept is shifting. some need to think more

Ppl look at each other...
