Evaluation on the focus/depth of the chosen subject:

AT THIS POINT ALL OF THE GROUPS SEEM TO HAVE QUITE CLEAR THEMES,
WHICH DEFINITELY HAVE TOUCHPOINTS WITH EACH OTHER. ~~THE~~ ALL OF THE
GROUPS HAVE MANY STARTING POINTS THAT ENABLE DEEPER INVESTIGATION

Evaluating group: The Estimators

Evaluation on the subject chosen by the group:

Mathematical art ; mathematical vs organic
↑
Interesting and on topic. Topics don't need to be separate
they inform each other

Evaluation on the focus/depth of the chosen subject:

We enjoyed the emotional and honest ways in
which you communicated about your project

Strengths of the presentation:

Narrative of the groups development.

Development areas of the presentation:

We would like to see the form and materials
that you will utilize in your project

Group to be evaluated: Trouble makers
Evaluating group: SuSy

Evaluation on the subject chosen by the group:

The project differs very much from the other subject, which is great! A creative and well thought out object.

Evaluation on the focus/depth of the chosen subject:

It felt more than a process than an actual object, which gave it quite a lot of depth and makes you wonder what comes next.

Strengths of the presentation:

Very much personal experiences and thoughts, a very "human" touch - but focused also partly on the pure mathematical.

Development areas of the presentation:

A more clear and less personal approach might be good when presenting the idea - the main idea remained a bit unclear.

Please continue your evaluation on the other side if /when needed !

Group to be evaluated:

NOT A ROBOT

Evaluating group:

TROUBLEMAKERS

Evaluation on the subject chosen by the group:

growth - nature → interesting (and unique)

Evaluation on the focus/depth of the chosen subject:

- maybe further research into growth patterns + mathematics before designing project

Strengths of the presentation:

- clear connections to mathematics + goals
- good storytelling / flow of presentation

Development areas of the presentation:

Rethink verbalization of [man-made structures + math]
vs. [organic] (organic has math concepts always)

Please continue your evaluation on the other side if /when needed !

Evaluation on the subject chosen by the group: GROWTH

Interesting topic

Evaluation on the focus/depth of the chosen subject:

Depth in thinking, reflection on course topic

Focus: found, process ongoing and moving towards implementation

Strengths of the presentation:

"birth of topic" approach liked & disliked
"topic revealed at the end"

Development areas of the presentation:
