Evaluating group: Ais-T

Evaluation on the subject chosen by the group:

- cool that traditional folk mythology concept was tied in
- Many ways you can realize the concept
- Concrete idea as well

Evaluation on the focus/depth of the chosen subject:

- Did not spend too much time talking about the mythology part, which was good b/c it allowed them to jump into the technical/artistic parts

Strengths of the presentation:

- Clear, creative focus
- Flexible project, there is lot that you could do with it

Development areas of the presentation:

- Maybe could have gone deeper into the mathematical/scientific components (e.g. explain "minimal surface" more)
↳ how this idea connects to practical implementation

(how mythical connects to
minimal surfaces)
