

Evaluation form

Group to be evaluated: TROUBLEMAKERS

Evaluating group: Peace of the π

Evaluation on the subject chosen by the group:

Innovative and ceramic is interesting

Evaluation on the focus/depth of the chosen subject:

Strengths of the presentation:

Not too long sentences in the slides

Development areas of the presentation:

Please continue your evaluation on the other side if /when needed !

Evaluation form

Group to be evaluated: TROUBLEMAKERS

Evaluating group: NOT A ROBOT

Evaluation on the subject chosen by the group:

growth, crystal fungi → can make interesting visuals
breaking rules of space → very nice

Evaluation on the focus/depth of the chosen subject:

very narrowed from last presentation
study more / incorporate growth of crystals + fungi
maybe from samples ☺

Strengths of the presentation:

very clear + specific
not confined in one space

Development areas of the presentation:

differentiate visuals / concept from iceberg + crystal garden
if possible

Please continue your evaluation on the other side if /when needed !

Evaluation form

Group to be evaluated: Troublemakers

Evaluating group: Estimators

Evaluation on the subject chosen by the group:

clusters and scattering, disrupting the order
interesting and visually pleasing

Evaluation on the focus/depth of the chosen subject:

is it ^{just} own rules of fungus or versus "room rules"

Strengths of the presentation:

Good and relaxed talk & good supportive pictures

Development areas of the presentation:

still not very concrete

Please continue your evaluation on the other side if /when needed !

Evaluation form

Group to be evaluated: Troublemakers

Evaluating group: Ais-T

Evaluation on the subject chosen by the group:

- Subject (life) has good mathematical connection

Evaluation on the focus/depth of the chosen subject:

- They presented many options that they could use with life; narrow it down a bit (clear ideas but narrow down)

Strengths of the presentation:

- Many possibilities to make concept fun
- Clear, multiple ideas

Development areas of the presentation:

- Focus more on how the biology would be constructed, if they are not using actual bacteria or fungi
- Connect mathematics more to ideas

Please continue your evaluation on the other side if /when needed !

Evaluation form

Group to be evaluated: Troublemakers (crystal fungus)
Evaluating group: SuSy

Evaluation on the subject chosen by the group:

playful subject, both for the creators
and the ones who will experience
it.

Evaluation on the focus/depth of the chosen subject:

Clear, simple idea that easily can
be further developed. The idea of crossing
the borders of the space is really
interesting!

Strengths of the presentation:

A lot of really good and fascinating
references!

Development areas of the presentation:

The idea is clear, but how are you going
to implement the idea in the
cultural center?

Please continue your evaluation on the other side if /when needed !
