

1 // WHO WE ARE

Griffin is a project realizer with a reference project in UAE and a strong network within Central Europe.

We have an experienced team and access to waste management projects.

We are financed and powered by Nordic institutional and private Finnish investors in addition to a governmental Business Finland Growth Engine program.

2 // WHAT WE DO

Plastics recycling consulting for corporate and governmental clients.

Operation of recycling and deposit systems ensuring maximum back-flow quotas for customers.

Trading of recycling materials globally, closing the loop between recyclers and producers.

Development, financing and operation of recycling plants within value adding local partnerships.

Driving R&D together with our customers and in partnership with the Reclay Group and Business Finland Growth Engine program .
