ECOSOCIAL APPROACH

to rethink the hierarchy of **ecological, social,** and **economic** aspects:

1. the viability of ecosystems
2. human rights
3. markets are instruments, not end goals

(Salonen & Konkka 2015)

ECOJUSTICE FRAMEWORK

.....

“a set of theories and pedagogical practices that begin from the fundamental acknowledgement that humans are utterly dependent upon a complex and diverse ecological system” (Foster et al. 2018).

1. a cultural-ecological analysis
2. revitalizing the commons
3. engaging imagination

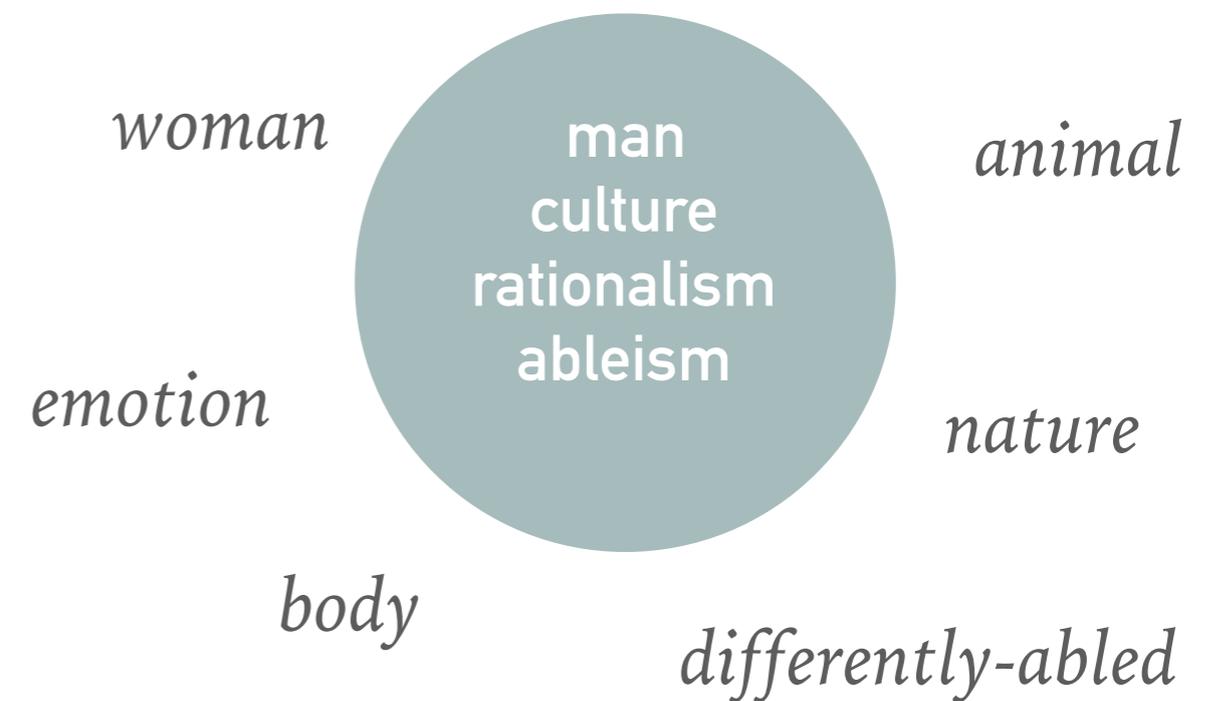

(See also Bowers 2001, Martusewicz et al. 2015.)

ECOFEMINISM

.....
Human/Nature dualism

Centric thinking

(Plumwood 1993, 2002).
